

Hello Friends,

Tax season is moving right along. All individual returns should be filed or extended by Monday April 18th. If you are living in Maine or Massachusetts, your federal and state deadline is April 19th.

Please be sure to return any e-file authorization forms by Saturday, April 16th. All electronically filed tax returns will need a signed e-file authorization. Any federal extension that includes an electronic debit will also require an e-file authorization. Electronic payments will not process until April 18th.

We will send an email confirmation when your electronically filed return has been accepted by the IRS. Please be patient on these confirmations particularly if returning a form in the last few days before the deadline.

We are currently not holding meetings with clients in our office, but any forms can be dropped off outside our door. We will update you if anything changes regarding our meeting policy.

Wishing you the best of health and a happy spring.

Vacovec, Mayotte and Singer LLP
